Building the Internet of Things with IPv6 and MIPv6: The Evolving World of M2M Communications
Daniel Minoli

"If we had computers that knew everything there was to know about things—using data they gathered without any help from us—we would be able to track and count everything, and greatly reduce waste, loss, and cost. We would know when things needed replacing, repairing or recalling, and whether they were fresh or past their best. The Internet of Things has the potential to change the world, just as the Internet did. Maybe even more so."
—Kevin Ashton, originator of the term, Internet of Things

An examination of the concept and unimagined potential unleashed by the Internet of Things (IoT) with IPv6 and MIPv6

What is the Internet of Things? How can it help my organization? What is the cost of deploying such a system? What are the security implications? *Building the Internet of Things with IPv6 and MIPv6: The Evolving World of M2M Communications* answers these questions and many more.

This essential book explains the concept and potential that the IoT presents, from mobile applications that allow home appliances to be programmed remotely, to solutions in manufacturing and energy conservation. It features a tutorial for implementing the IoT using IPv6 and Mobile IPv6 and offers complete chapter coverage that explains:

- What is the Internet of Things?
- Internet of Things definitions and frameworks
- Internet of Things application examples
- Fundamental IoT mechanisms and key technologies
- Evolving IoT standards
- Layer 1/2 connectivity: wireless technologies for the IoT
- Layer 3 connectivity: IPv6 technologies for the IoT
- IPv6 over low power WPAN (6lowpan)

Easily accessible, applicable, and not overly technical, *Building the Internet of Things with IPv6 and MIPv6* is an important resource for Internet and ISP providers, telecommunications companies, wireless providers, logistics professionals, and engineers in equipment development, as well as graduate students in computer science and computer engineering courses.

From reader reviews:

Anthony Powell:

The book Building the Internet of Things with IPv6 and MIPv6: The Evolving World of M2M Communications can give more knowledge and information about everything you want. So just why must we leave a good thing like a book Building the Internet of Things with IPv6 and MIPv6: The Evolving World of M2M Communications? Wide variety you have a different opinion about e-book. But one aim that book can give many facts for us. It is absolutely right. Right now, try to closer with the book. Knowledge or data that you take for that, you are able to give for each other; you are able to share all of these. Book Building the Internet of Things with IPv6 and MIPv6: The Evolving World of M2M Communications has simple shape nevertheless, you know: it has great and large function for you. You can appearance the enormous world by wide open and read a book. So it is very wonderful.

Juan McCain:

Do you among people who can't read pleasurable if the sentence chained in the straightway, hold on guys this aren't like that. This Building the Internet of Things with IPv6 and MIPv6: The Evolving World of M2M Communications book is readable through you who hate the straight word style. You will find the details here are arrange for enjoyable looking at experience without leaving even decrease the knowledge that want to offer to you. The writer of Building the Internet of Things with IPv6 and MIPv6: The Evolving World of M2M Communications content conveys thinking easily to understand by most people. The printed and e-book are not different in the written content but it just different such as it. So , do you still thinking Building the Internet of Things with IPv6 and MIPv6: The Evolving World of M2M Communications is not loveable to be your top collection reading book?

Cathrine Hart:

Hey guys, do you wishes to finds a new book to study? May be the book with the subject Building the Internet of Things with IPv6 and MIPv6: The Evolving World of M2M Communications suitable to you? The book was written by famous writer in this era. Often the book untitled Building the Internet of Things with IPv6 and MIPv6: The Evolving World of M2M Communicationsis a single of several books which everyone read now. This book was inspired many people in the world. When you read this book you will enter the new dimension that you ever know previous to. The author explained their idea in the simple way, consequently all of people can easily to be aware of the core of this publication. This book will give you a wide range of information about this world now. So you can see the represented of the world in this particular book.

Timothy Montgomery:

A lot of publication has printed but it differs. You can get it by world wide web on social media. You can choose the top book for you, science, amusing, novel, or whatever through searching from it. It is called of

book Building the Internet of Things with IPv6 and MIPv6: The Evolving World of M2M Communications. You can add your knowledge by it. Without leaving the printed book, it can add your knowledge and make you happier to read. It is most essential that, you must aware about reserve. It can bring you from one location to other place.
