Jeffrey L. Pasley

Beyond the Founders: New Approaches to the Political History of the Early American Republic Jeffrey L. Pasley

In pursuit of a more sophisticated and inclusive American history, the contributors to *Beyond the Founders* propose new directions for the study of the political history of the republic before the Civil War. In ways formal and informal, symbolic and tactile, this political world encompassed blacks, women, entrepreneurs, and Native Americans, as well as the Adamses, Jeffersons, and Jacksons, all struggling in their own ways to shape the new nation and express their ideas of American democracy.

Taking inspiration from the new cultural and social histories, these political historians show that the early history of the United States was not just the product of a few "founding fathers," but was also marked by widespread and passionate popular involvement; print media more politically potent than that of later eras; and political conflicts and influences that crossed lines of race, gender, and class.
