## **Dying Words: Endangered Languages and What They Have to Tell Us (The Language Library)**

Nicholas Evans

The next century will see more than half of the world's 6,000 languages become extinct, and most of these will disappear without being adequately recorded. Written by one of the leading figures in language documentation, this fascinating book explores what humanity stands to lose as a result.

- Explores the unique philosophy, knowledge, and cultural assumptions of languages, and their impact on our collective intellectual heritage
- Questions why such linguistic diversity exists in the first place, and how can we best respond to the challenge of recording and documenting these fragile oral traditions while they are still with us
- Written by one of the leading figures in language documentation, and draws on a wealth of vivid examples from his own field experience
- Brings conceptual issues vividly to life by weaving in portraits of individual 'last speakers' and anecdotes about linguists and their discoveries
