Managing Cyber Attacks in International Law, Business, and Relations

Scott J. Shackelford

Managing Cyber Attacks in International Law, Business, and Relations Scott J. Shackelford

This book presents a framework to reconceptualize Internet governance and better manage cyber attacks. It examines the potential of polycentric regulation to increase accountability through bottom-up action. It also provides a synthesis of the current state of cybersecurity research, bringing features of cyber attacks to light and comparing and contrasting the threat to all relevant stakeholders. Throughout the book, cybersecurity is treated holistically, covering issues in law, science, economics and politics. This interdisciplinary approach is an exemplar of how strategies from different disciplines as well as the private and public sectors may cross-pollinate to enhance cybersecurity. Case studies and examples illustrate what is at stake and identify best practices. The book discusses technical issues of Internet governance and cybersecurity while presenting the material in an informal, straightforward manner. The book is designed to inform readers about the interplay of Internet governance and cybersecurity and the potential of polycentric regulation to help foster cyber peace.

Don't be worry should you be afraid that this book may filled the space in your house, you can have it in e-book method, more simple and reachable. This particular *Managing Cyber Attacks in International Law, Business, and Relations* can give you a lot of good friends because by you checking out this one book you have issue that they don't and make an individual more like an interesting person. That book can be one of one step for you to get success. This book offer you information that perhaps your friend doesn't learn, by knowing more than different make you to be great people. So , why hesitate? Let me have *Managing Cyber Attacks in International Law, Business, and Relations*.

Juana Kitchen:

As a university student exactly feel bored in order to reading. If their teacher inquired them to go to the library or make summary for some publication, they are complained. Just tiny students that has reading's spirit or real their passion. They just do what the trainer want, like asked to go to the library. They go to at this time there but nothing reading critically. Any students feel that examining is not important, boring as well as can't see colorful images on there. Yeah, it is to get complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this *Managing Cyber Attacks in International Law, Business, and Relations* can make you experience more interested to read.
