Practical Gastroenterology

Stuart Bloom

Practical Gastroenterology Stuart Bloom

Practical Gastroenterology is aimed at the specialist trainee and new consultant in practice. Focusing primarily on day-to-day management issues, it reflects the way the problems present and are managed in the hospital, such as whether patients are seen as inpatients or outpatients. An introductory section provides a refresher course on the "basics" as well as advice on how to deal with referrals and the most common emergencies. This is followed by condition-specific chapters, split into the management of acute problems associated with inpatients and then a problem-based approach to the more chronic cases seen in outpatients. Finally, contraindications and complications are highlighted.
