System Analysis of Ambulatory Care in Selected Countries: With Special Concern for Computer Support (Lecture Notes in Medical Informatics)

The Working Group 5 of the International Medical Informatics Association (IMIA) is dedicated to information systems in primary care with special emphasis on computer systems in the doctor's office. Accordingly, a conference was held in Hannover in 1980 where the first approaches were described and experiences in system analysis, system construction and evaluation were discussed (Rienhoff, O. and Abrams, M.E. (eds.): The Computer in the Doctor's Office, North-Holland, Amsterdam: 1980). Computer hardware and software development has been rapid over the last years. Thus the prerequisites for a successful support of the work of the physician in his office have improved. But system construction still lags behind and the actual penetration of systems is lower than 2 % of the doctors' offices in most countries. This applies to industrialized countries. However, attempts are made everywhere to improve primary care by means of modern information technology. Information systems depend upon the real environment into which they are placed: administrative procedures govern priorities and procedures in doctor's office computers, possibilities to defray cost upon the various carriers or the patients have a great influence on the propagation of systems. Furthermore, various procedures of accounting or re-imburement may lead to a facilitation or to a delay of the introduction of systems. The 'art of medical practice' has reached a comparable standard within at least the industrialized countries.

From reader reviews:

Willie Long:

Throughout other case, little folks like to read book System Analysis of Ambulatory Care in Selected Countries: With Special Concern for Computer Support (Lecture Notes in Medical Informatics). You can choose the best book if you love reading a book. Given that we know about how is important any book System Analysis of Ambulatory Care in Selected Countries: With Special Concern for Computer Support (Lecture Notes in Medical Informatics). You can add know-how and of course you can around the world by just a book. Absolutely right, because from book you can realize everything! From your country till foreign or abroad you will be known. About simple matter until wonderful thing you can know that. In this era, we can easily open a book or searching by internet gadget. It is called e-book. You may use it when you feel weary to go to the library. Let's go through.

Geraldine Noll:

Are you kind of busy person, only have 10 or even 15 minute in your morning to upgrading your mind skill or thinking skill perhaps analytical thinking? Then you have problem with the book as compared to can satisfy your short period of time to read it because pretty much everything time you only find book that need more time to be study. System Analysis of Ambulatory Care in Selected Countries: With Special Concern for Computer Support (Lecture Notes in Medical Informatics) can be your answer because it can be read by you who have those short time problems.

Noah Gardner:

You could spend your free time to learn this book this publication. This System Analysis of Ambulatory Care in Selected Countries: With Special Concern for Computer Support (Lecture Notes in Medical Informatics) is simple to develop you can read it in the park your car, in the beach, train along with soon. If you did not include much space to bring the actual printed book, you can buy the actual e-book. It is make you better to read it. You can save the particular book in your smart phone. Thus there are a lot of benefits that you will get when you buy this book.

Betty Johnston:

What is your hobby? Have you heard which question when you got pupils? We believe that that issue was given by teacher on their students. Many kinds of hobby, Every person has different hobby. Therefore you know that little person such as reading or as examining become their hobby. You should know that reading is very important and book as to be the issue. Book is important thing to add you knowledge, except your teacher or lecturer. You discover good news or update about something by book. A substantial number of sorts of books that can you choose to use be your object. One of them is niagra System Analysis of Ambulatory Care in Selected Countries: With Special Concern for Computer Support (Lecture Notes in Medical Informatics).
