The forces of globalization and collaboration have presented a challenge to the traditional notions of leadership. How does leadership happen when there are many leaders trying to reach a goal and no clear followers? And what does leadership look like when no one person is in charge? In *The Deep Blue Sea*, Wilfred Drath responds to these challenges by presenting a new leadership framework called "relational leadership." His revolutionary approach recasts the idea of leadership as a group function that results in self-organized entities. Using the story of a fictional piano company, Drath helps us understand why this new notion of leadership is needed to face the challenges of the 21st century.
