Andreas Killen

1973 Nervous Breakdown: Watergate, Warhol, and the Birth of Post-Sixties America Andreas Killen
1973 marked the end of the 1960s and the birth of a new cultural sensibility. A year of shattering political crisis, 1973 was defined by defeat in Vietnam, Roe v. Wade, the oil crisis and the Watergate hearings. It was also a year of remarkable creative ferment. From landmark movies such as *The Exorcist*, *Mean Streets*, and *American Graffiti* to seminal books such as *Fear of Flying* and *Gravity's Rainbow*, from the proto-punk band the New York Dolls to the first ever reality TV show, *The American Family*, the cultural artifacts of the year reveal a nation in the middle of a serious identity crisis. *1973 Nervous Breakdown* offers a fever chart of a year of uncertainty and change, a year in which post-war prosperity crumbled and modernism gave way to postmodernism in a lively and revelatory analysis of one of the most important periods in the second half of the 20th century.
