Nanoporous Materials IV: Proceedings of the 4th International Symposium on Nanoporous Materials, Niagara Falls, Ontario, Canada June 7-10, 2005 (Studies in Surface Science and Catalysis)

Nanoporous Materials IV contains the invited lectures and peer-reviewed oral and poster contributions to be presented at the 4th International Symposium on Nanoporous Materials, which will be hosted in Niagara Falls, Ontario, Canada, June 7-10, 2005. This volume covers complementary approaches to and recent advances in the field of nanostructured materials with pore sizes larger than 1nm, such as periodic mesoporous molecular sieves (e.g., MCM-41 and SBA-15) and related materials including clays, ordered mesoporous carbons, colloidal crystal templated materials, porous polymers and sol gels. The broad range of topics covered in relation to the synthesis and characterization of ordered mesoporous materials are of great importance for advanced adsorption, catalytic, separation and environmental processes as well as for the development of nanotechnology.

This volume contains over 120 contributions related to the synthesis of ordered mesoporous silicas, organosilicas, nonsiliceous inorganic materials, carbons, polymers and related materials, their characterization and applications in adsorption, catalysis and environmental clean up.

- * Unique contributions brings readers up-to-date on new research and application developments
- * Figures and tables supplement comprehensive topics
- * Extensive author and subject index

From reader reviews:

Jon Cerrone:

Do you have favorite book? For those who have, what is your favorite's book? Publication is very important thing for us to be aware of everything in the world. Each guide has different aim or goal; it means that guide has different type. Some people sense enjoy to spend their the perfect time to read a book. These are reading whatever they have because their hobby is usually reading a book. What about the person who don't like examining a book? Sometime, man feel need book after they found difficult problem or even exercise. Well, probably you should have this Nanoporous Materials IV: Proceedings of the 4th International Symposium on Nanoporous Materials, Niagara Falls, Ontario, Canada June 7-10, 2005 (Studies in Surface Science and Catalysis).

Mark Spears:

Have you spare time for a day? What do you do when you have far more or little spare time? Yes, you can choose the suitable activity intended for spend your time. Any person spent all their spare time to take a go walking, shopping, or went to the Mall. How about open as well as read a book called Nanoporous Materials IV: Proceedings of the 4th International Symposium on Nanoporous Materials, Niagara Falls, Ontario, Canada June 7-10, 2005 (Studies in Surface Science and Catalysis)? Maybe it is to be best activity for you. You recognize beside you can spend your time using your favorite's book, you can better than before. Do you agree with their opinion or you have different opinion?

Charles Bock:

Typically the book Nanoporous Materials IV: Proceedings of the 4th International Symposium on Nanoporous Materials, Niagara Falls, Ontario, Canada June 7-10, 2005 (Studies in Surface Science and Catalysis) will bring you to definitely the new experience of reading some sort of book. The author style to spell out the idea is very unique. In case you try to find new book to learn, this book very suited to you. The book Nanoporous Materials IV: Proceedings of the 4th International Symposium on Nanoporous Materials, Niagara Falls, Ontario, Canada June 7-10, 2005 (Studies in Surface Science and Catalysis) is much recommended to you to learn. You can also get the e-book from official web site, so you can easier to read the book.

Lillian Trimmer:

Are you kind of stressful person, only have 10 or maybe 15 minute in your day to upgrading your mind skill or thinking skill also analytical thinking? Then you are having problem with the book as compared to can satisfy your small amount of time to read it because this time you only find e-book that need more time to be study. Nanoporous Materials IV: Proceedings of the 4th International Symposium on Nanoporous Materials, Niagara Falls, Ontario, Canada June 7-10, 2005 (Studies in Surface Science and Catalysis) can be your

answer because it can be read by you actually who have those short extra time problems.
