Building the Interfaith Youth Movement: Beyond Dialogue to Action

Violence committed by religious young people has become a regular feature of our daily news reports. What we hear less about are the growing numbers of religious young people from all faith backgrounds who are committed to interfaith understanding and cooperation. Building the Interfaith Youth Movement is the first book to describe this important phenomenon. Contributions include concrete descriptions of various interfaith youth projects across the country—from an arts-program in the South Bronx to a research program at Harvard University to a national organization called the Interfaith Youth Core based in Chicago—written by the founders and leaders of those initiatives. Additional chapters articulate the theory and methodology of this important new movement. This book is a must-read for college chaplains, religious leaders who work with youth, and students and scholars of contemporary religion.
