The Substantive Law of the EU: The Four Freedoms Catherine Barnard

In the 10 years since its first edition, Catherine Barnard's text has quickly established itself as the leading textbook on the Four Freedoms. Popular with students and academics alike, this authoritative text offers a unique balance of comprehensive, detailed coverage in a concise and readable style.

The fourth edition continues to provide a critical and thorough analysis of the key principles of the substantive law of the EU, focusing on the four freedoms. An introductory chapter provides valuable context on the governance of the internal market, its evolution, and the theories behind its key principles. Each of the freedoms is then dealt with in turn, covering goods, persons, services, and capital, before moving on to discuss harmonization, the regulation of the internal market, and its future. Additional useful detail is captured in footnotes, while further reading lists provide support for independent study and research.

This thorough coverage is fully supported by engaging case studies throughout the book which place the law in context, helping you to understand the complexities of the subject and exploring the practical implications of EU law. Diagrams, flowcharts, and tables offer further detail and illustrate key ideas and processes in an easily accessible format, while chapter overviews and a clear structure ensure readers remain on track and can find information quickly.
