Be careful what you wish for?

Lyra has always been ahead of the curve. Top of her class in school, a budding astronomer, and with a best friend like Darren she barely has time to miss the mother who abandoned her family years ago. She's too busy planning to follow in her father's footsteps, and to become the youngest astronomer at Space Exploration and Discovery.

When a star goes missing Lyra is determined to get to the bottom of it only to discover her braniac dad is the mastermind of a top-secret government experiment. They promise to build a perfect world, one galaxy at a time, but with every tweak of the present, a bit more of the future starts to crumble.

Lyra has to go undercover to reveal the truth and let humanity decide if the consequences are worth more than wishing on a star.
