## Elearning: The Key Concepts (Routledge Key Guides) Frank Rennie

E-Learning has long been touted as the brave new frontier of education, offering fresh challenges to teachers, students and, indeed, the whole of the education system. Addressing this, *Elearning: The Key Concepts* is the perfect reference for anyone seeking to navigate the myriad of names, concepts and applications associated with this new era of teaching, training and learning.

Taking the reader from A to Z through a range of topics including blogging, course design, plagiarism, search engines and Virtual Learning Environments (VLEs), this timely work features:

- full cross-referencing
- a substantial introduction exploring the development of the field and putting modern-day challenges in context
- extensive guides to further reading.

The only text of its kind to provide concise and user-friendly definitions of the crucial terms used in this growing field, this is a highly useful resource for online course co-ordinators, undergraduate students taking online courses, students on masters-level online learning courses, and trainers.
