Merrill's Atlas of Radiographic Positioning and Procedures: Volume 1 Bruce W. Long, Jeannean Hall Rollins, Barbara J. Smith

More than 400 projections make it easier to learn anatomy, properly position the patient, set exposures, and take high-quality radiographs! With **Merrill's Atlas of Radiographic Positioning & Procedures, 13th Edition**, you will develop the skills to produce clear radiographic images to help physicians make accurate diagnoses. It separates anatomy and positioning information by bone groups - using full-color illustrations to show anatomical anatomy, and CT scans and MRI images to help you learn cross-section anatomy. Written by radiologic imaging experts Bruce Long, Jeannean Hall Rollins, and Barbara Smith, **Merrill's Atlas** is not just the gold standard in radiographic positioning references, and the most widely used, but also an excellent review in preparing for ARRT and certification exams!

- **Comprehensive, full-color coverage of anatomy and positioning** makes *Merrill's Atlas* the most in-depth text and reference available for radiography students and practitioners.
- **Frequently performed projections** are identified with a special icon to help you focus on what you need to know as an entry-level radiographer.
- **Numerous CT and MRI images** enhance your comprehension of cross-sectional anatomy and help you prepare for the Registry examination.
- **UNIQUE! Collimation sizes** and other key information are provided for each relevant projection.
- **Bulleted lists** provide clear instructions on how to correctly position the patient and body part when performing procedures.
- **Summary tables** provide quick access to projection overviews, guides to anatomy, pathology tables for bone groups and body systems, and exposure technique charts.
- **NEW! Coverage of the latest advances in digital imaging** also includes more digital radiographs with greater contrast resolution of pertinent anatomy.
- **NEW positioning photos** show current digital imaging equipment and technology.

Kevin Shepherd:

Can you one of the book lovers? If so, do you ever feeling doubt when you are in the book store? Attempt to pick one book that you just dont know the inside because don't assess book by its deal with may doesn't work is difficult job because you are afraid that the inside maybe not since fantastic as in the outside search likes. Maybe you answer can be Merrill's Atlas of Radiographic Positioning and Procedures: Volume 1 why because the great cover that make you consider about the content will not disappoint you actually. The inside or content is actually fantastic as the outside or cover. Your reading sixth sense will directly show you to pick up this book.

Danielle Rucks:

As a college student exactly feel bored in order to reading. If their teacher questioned them to go to the library as well as to make summary for some guide, they are complained. Just very little students that has reading's soul or real their leisure activity. They just do what the educator want, like asked to the library. They go to right now there but nothing reading really. Any students feel that reading through is not important, boring and also can't see colorful photos on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this era, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore , this Merrill's Atlas of Radiographic Positioning and

Procedures: Volume 1 can make you truly feel more interested to read.
