**Decision Support for Global Enterprises: 2 (Annals of Information Systems)** Uday Kulkarni, Daniel J. Power, Ramesh Sharda

India is becoming the 'global back office' to international supply chains, creating a substantial communications and decision-support infrastructure for large and small enterprises in the global market place to utilize these resources. Decision Support for Global Enterprises consists of peer-reviewed and invited papers with two primary goals: (1) Stimulate creative discussion between academic researchers and the practitioner IS community to improve the research and practice in the area. (2) Increase awareness of the problems and challenges faced by global enterprises that can be met with innovative decision support systems. Limitations are also explored, covering the following topics: (1) the emerging enterprise decision making processes and technologies; (2) decision making in uncertain, changing conditions; (3) the changing infrastructure in organizations and society; (4) the expanding role of web technologies; and (5) emerging theories and practices for managing knowledge and making decisions.
