**Overpotential: Fuel Cells, Futurism, and the Making of a Power Panacea (Studies in Modern Science, Technology, and the Environment)** Matthew Eisler

It sounds so simple. Just combine oxygen and hydrogen in an electrochemical reaction that produces water and electricity, and you'll have a clean, efficient power source. But scientists have spent decades—and billions of dollars in government and industry funding—developing the fuel cell. There have been successes and serendipitous discoveries along the way, but engineering a fuel cell that is both durable and affordable has proved extraordinarily difficult.

*Overpotential* charts the twists and turns in the ongoing quest to create the perfect fuel cell. By exploring the gap between the theory and practice of fuel cell power, Matthew N. Eisler opens a window into broader issues in the history of science, technology, and society after the Second World War, including the sociology of laboratory life, the relationship between academe, industry, and government in developing advanced technologies, the role of technology in environmental and pollution politics, and the rise of utopian discourse in science and engineering.

### **From reader reviews:**

#### **Corrina Sutton:**

Have you spare time for just a day? What do you do when you have far more or little spare time? Sure, you can choose the suitable activity intended for spend your time. Any person spent their own spare time to take a stroll, shopping, or went to the Mall. How about open as well as read a book entitled Overpotential: Fuel Cells, Futurism, and the Making of a Power Panacea (Studies in Modern Science, Technology, and the Environment)? Maybe it is to become best activity for you. You recognize beside you can spend your time with your favorite's book, you can more intelligent than before. Do you agree with their opinion or you have various other opinion?

#### **Carolyn Bailey:**

As people who live in often the modest era should be upgrade about what going on or information even knowledge to make them keep up with the era which is always change and move forward. Some of you maybe will probably update themselves by examining books. It is a good choice for yourself but the problems coming to an individual is you don't know what one you should start with. This Overpotential: Fuel Cells, Futurism, and the Making of a Power Panacea (Studies in Modern Science, Technology, and the Environment) is our recommendation so you keep up with the world. Why, as this book serves what you want and need in this era.

#### **Diane Wilson:**

As we know that book is very important thing to add our understanding for everything. By a e-book we can know everything we want. A book is a range of written, printed, illustrated or maybe blank sheet. Every year was exactly added. This guide Overpotential: Fuel Cells, Futurism, and the Making of a Power Panacea (Studies in Modern Science, Technology, and the Environment) was filled with regards to science. Spend your extra time to add your knowledge about your scientific disciplines competence. Some people has distinct feel when they reading some sort of book. If you know how big advantage of a book, you can feel enjoy to read a publication. In the modern era like today, many ways to get book that you wanted.

#### **Scott Reisinger:**

As a student exactly feel bored to reading. If their teacher inquired them to go to the library in order to make summary for some publication, they are complained. Just tiny students that has reading's heart and soul or real their leisure activity. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading very seriously. Any students feel that reading through is not important, boring in addition to can't see colorful photos on there. Yeah, it is to get complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this Overpotential: Fuel Cells, Futurism, and the Making of a Power Panacea (Studies in Modern Science, Technology, and the Environment) can make you experience

more interested to read.
