A History of the Kennedy Space Center

Kenneth Lipartito, Orville R Butler

A History of the Kennedy Space Center Kenneth Lipartito, Orville R Butler

Kennedy v. Nixon is a book for everyone who *thinks* they know what happened in the pivotal election year of 1960. For fifty years we've accepted Theodore White's premise (from *The Making of the President, 1960*) that Kennedy ran a brilliant campaign while Nixon committed blunder after blunder.

But White the journalist was a Kennedy partisan and helped establish the myth of Camelot. Now, five decades later, Edmund Kallina offers a fresh overview of the election's most critical and controversial events.

Based upon research conducted at four presidential libraries--those of Eisenhower, Kennedy, Johnson, and Nixon--Kallina is able to make observations and share insights unavailable in the immediate aftermath of one of the closest races in American presidential history. He describes the strengths and mistakes of *both* camps, and examines the impact of civil rights, Cold War tensions, and the televised presidential debates on an election that still looms large in both the political history and the popular imagination of the United States.
