British Rail Main Line Locomotives Specification Guide Pip Dunn

British Rail Main Line Locomotives Specification Guide identifies the major detail differences and livery variations that have appeared on all British Rail, ex-British Rail and privatized railway diesel and electric main line classes from 14 to 92. The book provides a record of the main specifications of each class of locomotive, and details of variations, including: numbers, liveries, headcodes, headlights, wheel arrangements and bogies, brakes, names and - where appropriate - details of refurbishment programmes. Diesel locomotives are a relative newcomer to the railway enthusiast and modelling scenes, and this book brings together information on detail changes in a coherent reference form for the first time, illustrated with photographs of major changes. A useful resource for modellers and those with an interest in the differences that have occurred to the British Rail fleet. Superbly illustrated with around 300 colour photographs.
