## Work Motivation: Past, Present and Future (SIOP Organizational Frontiers Series)

This edited volume in SIOP's Organizational Frontiers Series presents the current thinking and research on the important area of motivation. Work Motivation is a central issue in Industrial organizational psychology, human resource management and organizational behavior. In this volume the editors and authors show that motivation must be seen as a multi-level phenomenon where individual, group, organizational and cultural variables must be considered to truly understand it. The book adopts an overall framework that encompasses "internal" - from the person - forces and "external" - from the immediate and more distant environment - forces. It is destined to challenge scholars of organizations to give renewed emphasis and attention to advancing our understanding of motivation in work situations.
