**Confessing God: Essays in Christian Dogmatics II (T&T Clark Cornerstones)** John Webster

Put together as a companion volume to his earlier volume, *Word and Church*, in this book John Webster begins to give voice to a reordered conception of the substance of Christian teaching, at the heart of which lies a discovery of the content and consequences of Christian teaching about God's perfection.

Webster gives the readers a worked example of 'theological theology', that is, Christian theology which takes its rise in the Christian confession of the gospel which seeks to hear, celebrate and commend.

This classic volume from one of the leading theologians in the world remains an important contribution to the field of systematic theology. For this *Cornerstones* edition Webster has written a new preface in which he sets the work against the current debate and his own current theology.
