Star Warriors & Star Dreamers: 5 Classic Science Fiction Pulp Novels Edmond Hamilton, David V. Reed, Don Wilcox, Dwight V. Swain, Arthur Burks

In this special megabundle you will find novels about those of our time and the future who dream of traveling the spacelanes and of the warriors who defend them and the freedom of the stars. The success of Star Trek, Star Wars, Babylon 5, Farscape, and Battlestar Galactica proves that people who watch science fiction have a soft spot in their hearts for starship soldiers. The same is true of its readers, just look at Heinlein's perennial bestseller Starship Troopers, the gigantically successful Miles Vorkosigan saga, and the fact that Ann Leckie's Ancillary Justice won all five top awards in the science fiction field. Perhaps the popularity of this genre of science fiction also suggests a deep realization that there will never be peace in our time – or any time! Who then will fight for us, and how?

And yet we still dream of the stars of future frontiers where every human can seek their own destiny and where there are planets for the living that have no intelligent life and where humans can set down roots without the need to oppress other sentient beings. We even dream of women and men who will have the dream of the stars in the future and hunger, as so many do today, to leave Earth behind and experience the far wonders of the universe. This book, and the stories in it, are for all science fiction lovers – dreamers who dream of future dreamers – who hunger for a future where people soar among the stars and of the warriors who will defend those dreamers and that dream.
