Tra moglie e marito (Italian Edition) Massimiliano Ambrosino

La scienza ha ampiamente dimostrato che in natura sono possibili diversi tipi di interazione tra esseri viventi e molte di esse sembra che funzionino anche abbastanza bene. Sin dall'antichità la natura ha pensato anche alla specie umana ed ha cercato di far coesistere l'uomo e la donna. Due esseri unici nella loro complessità ma spesso troppo diversi e incompatibili tra loro. Col tempo l'evoluzione li privò sempre più della peluria e li ha dotati della capacità di sviluppare un linguaggio per comunicare e per esprimere ognuno la propria opinione. Hanno avuto il dono della parola ma forse nella loro diversità non si sono mai capiti fino in fondo. Così diversi nell'essenza del proprio essere ma forse proprio per questo così inseparabili.
